IL GIORNO DI FOX

GRUPPO **FOX**

IL GIORNO DI FOX

Il linguaggio formale della **Collezione Il Giorno Di Fox** si presenta attraverso uno spirito prettamente contemporaneo e razionale, dal sapore moderno.

Un'eleganza accennata e mai leziosa esalta lo stile easy-chic che diviene tratto distintivo.

Il Giorno di Fox prende vita nel centro di ricerca e design del **Gruppo Fox**, grazie a un team altamente qualificato e sensibile alle esigenze delle dinamiche domestiche e collettive, da declinare attraverso un gusto in evoluzione continua, eppure sempre rassicurante e fortemente identitario del marchio Fox.

La collezione viene presentata in architetture razionali e sofisticate, a tratti pindariche affinché l'esperienza di comfort sia veicolata attraverso un viaggio emozionale che coinvolge tutti i sensi.

Legni pregiati, marmi, morbidi drappaggi e pareti materiche accolgono i prodotti che prendono vita insieme ad elementi di design che impreziosiscono la scena in veste di accessori esclusivi.

Pellami di qualità, tessuti morbidi e dalle textures ricercate conferiscono personalità uniche e nuove ed il concetto del tailor made si racconta attraverso la sua preziosa maestosità.

La ricca disponibilità di elementi standard semplifica il concetto di componibilità in modo tale da poter rispondere alle più svariate esigenze di progettazione.

Questa selezione accurata apre il dialogo ad un gusto nuovo, la visione progettuale del brand coincide facilmente con quella dell'utente Fox, ed il viaggio ha inizio...

FOX BY DAY

The formal language of the Fox by Day Collection presents itself through a purely contemporary and rational spirit, with a modern flavour.

A hinted and never affected elegance enhances the easy-chic style which becomes a distinctive feature.

Fox by Day comes to life in the research and design center of Gruppo Fox, thanks to a highly qualified team sensitive to the needs of domestic and collective dynamics, to be expressed through a continuously evolving taste, yet always reassuring and strongly identifying the Fox brand.

The collection is presented in rational and sophisticated architectures, sometimes pindaric, so that the experience of comfort is conveyed through an emotional journey that involves all the senses.

Precious woods, marbles, soft drapes and material walls welcome the products that come to life together with design elements that embellish the scene as exclusive accessories.

Quality leathers, soft fabrics and refined textures give unique and new personalities and the concept of tailor made is told through its precious majesty.

The rich availability of standard elements simplifies the concept of modularity in such a way as to be able to respond to the most varied design needs.

This careful selection opens the dialogue to a new taste, the brand's design vision easily coincides with that of the Fox customer, and the journey begins...

SHOWROOM

SHOWROOM

Inauguriamo il nostro showroom, luogo dinamico, uno spazio che racconta di noi. Fortemente convinti che i valori tramandati nel tempo costituiscano le basi più solide su cui costruire il nostro futuro, prendiamo atto di quanto anche sia sempre più necessario comunicare un *know how* improntato su qualità e prodotto ma anche sull'identità di chi lo crea.

E' proprio in questo spazio, che si sviluppa attraverso architetture rigorose e morbidi dettagli, che il cliente Gruppo Fox deve poter trovare un contesto stimolante, conoscere nuove essenze e filati, scoprire pellami e lavorazioni, senza tralasciare le importanti relazioni che si consolidano durante le visite.

La nostra area industriale diviene cornice per questo viaggio, che fa vivere la calda sensazione di un ambiente domestico e si declina attraverso pezzi vintage e giochi di luce volti ad esaltare i materiali selezionati, parquet e resine per i pavimenti, pareti materiche e cristalli in sospensione, i nostri prodotti e quindi vostri fedeli compagni di vita domestica, firmati **Gruppo Fox**.

We inaugurate our showroom, a dynamic place, a space that tells about us. Strongly convinced that the values handed down over time constitute the most solid foundations on which to build our future, we take note of how much more necessary it is to communicate a know-how based on quality and product but also on the identity of those who create it.

It is precisely in this space, which develops through rigorous architectures and soft details, that the Gruppo Fox customer must be able to find a stimulating context, get to know new essences and yarns, discover leathers and processes, without neglecting the important relationships that are consolidated during the visits.

Our industrial area becomes the setting for this journey, which brings to life the warm feeling of a domestic environment and is declined through vintage pieces and plays of light aimed at enhancing the selected materials, parquet and resin for the floors, material walls and suspended crystals, our products and therefore your faithful companions in domestic life, signed by Gruppo Fox.

Per un corretto utilizzo i divani devono essere completati con i cuscini di schienale oppure con i cuscinetti accessori. Le cuciture praticate di serie su questo modello sono: taglio vivo (pelle), pizzicata (tessuto) e profilo in canneté in tinta o a contrasto (velluto).

A richiesta e senza maggiorazione, viene praticata una cucitura a costina che rende i rivestimenti più abbondanti, per un aspetto e una seduta più soffice e destrutturata.

The feather padding will give the sofa a more unstructured and worn look, the shapes of the cushions will therefore become softer.
